

SMART-Plant joint Stakeholder Workshop

Recovering valuable resources from wastewater: from innovation to implementation

Berlin, Wednesday 29th January 2020

Venue: Seminar mit Spreeblick, An der Schillingbrücke 4, 10243 Berlin

AGENDA

08:30	Registration of participants
09:00	Welcome by local organizer KWB and SMART-Plant coordinator
Block 1:	Innovation in resource recovery from WWTP (10 min pitches)
09:10	1. H2020 innovation action SMART-Plant – <i>Francesco Fatone, UNIVPM</i>
	2. H2020 innovation action NEXTGEN – <i>Anne Kleyböcker, KWB</i>
	3. H2020 innovation action HYDROUSA – <i>Simos Malamis, NTUA</i>
	4. INTERREG NWE project WoW! – <i>Inka Hobus, WiW</i>
	5. H2020 innovation actions SMART-Plant and Digital Water-city - Digitalization in resource recovery – <i>Evina Katsou, UBRUN + Nicolas Caradot, KWB</i>
	6. Value in Water Cluster of Water Europe – <i>Julia Rinck, DVGW-TZW</i>
10:30	Coffee break
Block 2:	From innovation to implementation
11:00	Environmental benefits of resource recovery as a driver for implementation? – <i>Christian Remy, KWB</i>
	Spotlight: implementation of phosphorus recovery in Germany
11:15	Legislation and technology development for P recovery in Germany – <i>Theresa Sichler, BAM</i>
11:30	Nutrient recovery strategy of Veolia – <i>Boris Lesjean, Veolia Germany</i>
11:45	Strategy of P-recovery in Berlin - <i>Lea Conzelmann, KWB</i>
12:00	Bridging the gap between innovation and implementation – <i>Lena Heinrich, ISLE Utilities</i>
12:15	Panel discussion: how to come from innovation to implementation?
13:00	Lunch
14:00	Site visit of P recovery facility at WWTP Waßmannsdorf (Airprex)
16:30	End of workshop (bus shuttle will return via airport SXF to meeting venue)

! Please register for the workshop and the site visit to Waßmannsdorf until January 22nd
Contact: Lea.Conzelmann@kompetenz-wasser.de

Location of the workshop: close to train station "Ostbahnhof" (5 min walking)

Site visit to struvite recovery plant at WWTP Waßmannsdorf:
